Assignment #3

Code:

```
1  import java.util.*;
2
3  public class challenge1 {
4      private static void bubbleSort(ArrayList<Integer> intArray) {
5          Integer temp = 0;
6          for (int i = 0; i < intArray.size(); i++) {
7              for (int j = 1; j < (intArray.size() - i); j++)
8              {
9                  if (intArray.get(j - 1) > intArray.get(j))
10                 {
11                     temp = intArray.get(j - 1);
12                     intArray.set(j-1, intArray.get(j));
13                     intArray.set(j, temp);
14                 }
15             }
16         }
17     }
18
19     public static void main(String[] args) {
20         ArrayList<Integer> nums = new ArrayList<Integer>();
21         Scanner input = new Scanner(System.in);
22         while(true)
23         {
24             System.out.println(x:"Enter your integer (Type q to quit)");
25             String keyboard = input.next();
26             try {
27                 nums.add(Integer.parseInt(keyboard));
28             }
29             catch(NumberFormatException e)
30             {
31                 break;
32             }
33         }
34         input.close();
35         System.out.println();
36         System.out.println("Current Array: " + nums);
37         bubbleSort(nums);
38         System.out.println("Sorted Array: " + nums);
39     }
40 }
41
```

Terminal

Enter your integer (Type q to quit)

10

Enter your integer (Type q to quit)

9

Enter your integer (Type q to quit)

1

Enter your integer (Type q to quit)

0

Enter your integer (Type q to quit)

2

Enter your integer (Type q to quit)

6

Enter your integer (Type q to quit)

3

Enter your integer (Type q to quit)

900

Enter your integer (Type q to quit)

3

Enter your integer (Type q to quit)

1

Enter your integer (Type q to quit)

81

Enter your integer (Type q to quit)

q
